## Professional Summary

Junior Developer with hands-on experience building responsive web apps and backend systems using the MERN stack. Strong foundation in React, Node.js, and Python scripting. Previously supported peers as a programming tutor, helping them understand core concepts, debug, and automate tasks. Currently focused on strengthening backend skills and deploying real-world applications.

---

## Hard Skills

Proficient In: JavaScript, Python, SQL, React, Node.js, Express.js, HTML, CSS, Git, MongoDB.

Familiar With: Java (Spring boot), Django, Linux, Firebase.

Tools & Technologies: GitHub, Postman, REST APIs, Selenium, Firebase Auth.

Development Practices: Responsive Web Design, Debugging, Version Control, Automation Basics

Soft Skills: Mentoring, Communication, Time Management, Problem-Solving, Team Collaboration.

---

## Education & Certificates

### COMPUTER PROGRAMMING | HUMBER POLYTECHNIC | JANUARY 2024 - AUGUST 2025

- Learning full-stack development, databases, scripting, and software engineering practices.
- Achieved Honour Roll recognition (Winter, Summer 2024 & Winter 2025).

### THE COMPLETE FULL-STACK WEB DEVELOPMENT BOOTCAMP | JANUARY 2024

- Built and deployed full-stack apps using HTML, CSS, JavaScript, Node.js, Express, and MongoDB.

### 100 DAYS OF CODE: THE COMPLETE PYTHON PRO BOOTCAMP | APRIL 2024

- Learned Python fundamentals, automation, APIs, OOP, and web scraping through real-world projects.
- 

## Projects

### QUIZ GAME APP

Live Website: <https://quiz-game-zeta-eight.vercel.app/>

- Developed an interactive quiz application using **React** and **Context API** to manage state across components.
- Designed a clean, responsive UI with real-time scoring, timer functionality, and feedback screens.

### MEAL PLANNER LANDING PAGE

Live Website: <https://meal-planner-landing-page-murex.vercel.app/>

- Created a responsive landing page using **HTML**, **CSS**, and basic **JavaScript** to showcase a meal planning service.
  - Focused on visual design, layout, and mobile-friendly responsiveness to ensure accessibility and user appeal.
- 

## Work

### PEER TUTOR | HUMBER POLYTECHNIC | 2024-08 TO PRESENT

- Support students in web development (HTML, CSS, JavaScript, React) and Python scripting through one-on-one tutoring.
  - Assist with debugging, project guidance, and explaining concepts like APIs, responsive design, and version control.
  - Manage 10+ hours/week of tutoring while maintaining strong academic performance.
  - Foster a positive learning environment and help students build confidence in problem-solving.
-
